Description

Teacher Nguyen Van A reports being unable to log in to the LMS.

Error message: "Invalid username or password"

Impact:
- One user affected
- Teacher needs access to class materials for today's class
- User reports that the password entered should be correct

Initial scope: No evidence of a system-wide issue at this time

This customer survey has been sent because your ticket has been moved to the stage **Solved**.

D **Duonghb1577@gmail.com** 9:44 PM
Follow-up (simulated)

Assumed requester confirmation:
The affected users can access the LMS normally again and page loading has returned to an acceptable level.

Issue considered resolved for this training scenario.

D **Duonghb1577@gmail.com** 9:41 PM
Resolution

Password reset completed successfully.

The requester has been asked to retry login using the correct LMS URL

D **Duonghb1577@gmail.com** 9:32 PM
Decision

Because the account is active and only one user is affected,

a password reset is selected as the next action.
