Delivery & Follow-up

- MVP report delivered before the fixed deadline
- Agreed scope completed

- No student-level PII included
- Requester asked to review and confirm
- Any remaining nice-to-have items documented separately

Processing Issue (training simulation)

Issue:
Revenue data requires an additional data source and cannot be validated within the current processing window.

Impact:
MVP enrollment report is not affected.

Options:
1. Deliver MVP on time without revenue data
2. Delay full report to include revenue data

Recommendation:
Deliver MVP before the fixed deadline and provide revenue data separately later.

Approval Update (simulation)

Manager approved the proposed data scope and data access.

Processing started for:
- Current-quarter enrollment
- Campus breakdown
- Program breakdown
- Course breakdown

Expected delivery:
Before the fixed deadline.

Nice-to-have metrics remain conditional on time and data availability.
